

Automate the below steps using UiPath. Make sure you break your solution into multiple workflows and define relevant variables and arguments. After completion, send your UiPath project solution to – ylankatilleka@innobothealth.com.

1. Navigate to <https://www.rpasamples.com/>.
2. Click on the Supplier Management System button.
3. Click on the New Supplier button.
4. Enter the below details for the correct field:
 - a. Insert your first name for the Internal Name field.
 - b. Insert your full name for the External Name field.
 - c. Insert an account photo of your choice.
 - d. Select the Industry as education.
5. Press the save button.
6. Press the Export CSV button and download the report.
7. Filter all Education Industry records and paste it to a new sheet in the same file.
8. Rename the file as "SupplierDetails_CurrentDate". For example, if the current date is 29th of September 2023, the file name should go as "SupplierDetails_09292023". (Do not hardcode the current date)
